HYBRID CLOUD DONE RIGHT

HPE GreenLake with Microsoft Azure Stack

Finally, there's a best-of-both-worlds solution that combines all the benefits of on-premises IT and cloud. HPE GreenLake delivers an on-premises cloud platform using Microsoft Azure Stack®. With a flexible pay-per-use model, you can consume what you need, when you need it, and take the hassle out of deploying Microsoft Azure Stack on your own.

“Private cloud will be the primary cloud environment for 25% of enterprises in two years, up from 22% today.”

– 451 Research, Cloud Price Index: The Economics of Private Cloud 2019
